(a) Total microbial hydrogen consumption
Compositional PHREEQC
Multirate PHREEQC
46.41%
38.86%
Consumed / total prescribed H₂ injection (%)
Time (days)
(b) Contributions from the three reactions
Compositional · MET
Compositional · ACE
Compositional · SRB
Multirate · MET
Multirate · ACE
Multirate · SRB
Consumed / total prescribed H₂ injection (%)
Time (days)
